Achievements in the city and republic

1. Children are winners in the republican TV competitions "Song of Songs" ("Dainų dainelė") and photography competition "My Europe" ("Mano Europa");
2. Works created by children and institution pedagogues are presented in city and country's expositions;
3. Children represent their kindergarten in the competitions and festivals held in our city and district, such as "Basket of Plays", "Bell Echo", "Nightingale is singing", "Waves of the Baltic", "Dance vision", "To You, Who Guards Me";
4. Soloists and ensembles of the institution appeared on Lithuanian television 12 times while participating in the competitions "Song of Songs" ("Dainų dainelė") and in the project "Little Stars' Hour" („Mažųjų žvaigždžių valanda“).
5. Pedagogues of the institution have lately organized more than 50 authorized seminars in our city and country. Consultants on pre-school education, inner audit and individual projects preparation are helping pedagogues of the city and district.
6. Six pedagogues of our institution have become directors of other institutions in the city;
7. 98% of our pedagogues have university education;
8. 80% of pedagogues know how to work with modern technologies and use them in their work. Our institution has good technical basis (8 computers, 4 printers, copier, projectors, digital and video equipment, in groups and halls – music centers);
9. Pedagogues of the institution first in Klaipeda city were granted two international Comenius projects. Their partners were pedagogues from Spain, England, Germany, Scotland and Turkey;
10. According to the research done by magazine "Face" ("Veidas"), our nursery-kindergarten "Volungele" is in the list of top ten best kindergartens in Lithuania.

Establishment of the kindergarten

Our nursery-kindergarten was established in 1982 and given its name "Volungele" in 1988. There are 11 working groups with 208 boys and girls attending them: 2 groups of the nursery (children of 1 – 3 years), 7 pre-school groups (children of 3 – 6 years) and 2 groups where children prepare for going to school (children of 5 – 7 years).

24 teachers take care of these children: one teacher is an expert, 6 supervisor teachers and 17 teachers, having higher qualifications. Head

teachers of the institution have the following categories: director Eugenija Simpukiene – the highest managerial qualifying category and assistant director Zita Bulsiene – II managerial qualifying category.

Priorities of the institution

- ✚ Ethnical culture and possibilities of its integration,
- ✚ Improvement of health and healthy lifestyle.

There are number of traditional national-cultural events organized in the nursery-kindergarten, which engage all community of the institution as well as local residents of the district. Therefore, unique thematic weeks are organized.

Organization of educational process

Education in our nursery-kindergarten is organized according to the program "To know myself and to know you", prepared

by our institution as well as general program of pre-school education and general program of pre-school education and self-education. Atmosphere of coziness and warmth, adjusted to the needs and interests of children is prevailing in our institution. Groups are provided with various means, which encourage children's activity, communication and cooperation.

"Volungele" has two comfortable spacious halls:

Music hall – there little children are taught to listen to music, to like singing it, dance and play music instruments. Playful and lively music hours help to reveal child's talents, develop his talents, train child's emotional sensitivity and provide lots of joy. Children are taught by music teacher, who roots rudiments of musical perception and performance.

Sports hall – environment created here encourages children to play, create and stay active. Every child is given a possibility

not only to train his body, but also to learn how to stay fit, preserving and active while playing in great spirits.

Playing room – here children can choose activities according to their interests, hobbies and mood.

Room of clay and straws – here children get to know their ethnic culture and learn to create.

Our nursery-kindergarten also provides services of a qualified therapeutic to children, who have difficulty pronouncing various sounds or disorders of communication.

Vision of our nursery-kindergarten

Educational and socio-cultural institution of high pedagogical culture oriented towards developing child's inborn abilities, comprehensive spread of his talents and education of a responsible human being.
